

FOCUS ON GREENKEEPING

The Bowls Development Programme provides an essential foundation in the knowledge and skills necessary to economically, safely and consistently produce high quality bowling green surfaces. This is ideal introductory training for anyone new to the role of green keeper.

The programme is New Zealand Qualifications Authority (NZQA) recognised and typically takes 12 months to complete. The learning is delivered via a series of regionally based training days/workshops and on-line learning.

A total of five workshops will be conducted during the off-peak winter months between April and August. Workshops consist of a mix of classroom and practical field day learning and assessments.

- Pest identification and control
- Disease identification and management
- Weed identification
- Fertiliser and soil fundamentals
- Mowing knowledge
- Occupational health and safety
- Soil water management

The course cost is \$395 excl. GST.

For further information about a Bowls Development Programme in your area please contact:
